

Fly the Aircraft First - Dealing with Distractions

Please join us this Saturday to discuss the role of distractions and inappropriate priorities in aircraft accidents. We will offer some tips to maintain proficiency and control discipline and how to prioritize distractions both inside and outside the plane. Loss of aircraft control remains one of the most prevalent problems for active pilots.

Directions: Meeting will be held in the Airport Administration Building. Fly-in aircraft should park on the north side of the ramp, opposite the Administration Building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
